March 9, 2020

Dear Family Member,

As you are aware, the Coronavirus (COVID-19) has reached Long Island. Governor Cuomo has declared a state of emergency in New York State.

Our facility has implemented all infection control procedures recommended by the Center for Disease Control (CDC) and the New York State Department of Health (NYS DOH).

The health and safety of our residents and staff is our primary concern. After consulting with our Medical Director, Dr. John O'Connor, we feel it is imperative, as a preventative measure, that we must cancel all visitations until further notice.

We are sensitive to the importance of family contact so we are in the process of setting up Skype, Facetime, and phone calls at family/resident request. Please contact the Social Services Department at either ext. 147 or 144 for any assistance with those methods of communication. Please feel free to call anytime and speak with a nurse for updates on your loved ones health status. Going forward, Care Plan Meetings and discharge planning will be conducted via telephone.

Please share this information with any other family members or friends who were considering visiting our facility. Your cooperation is an essential component in keeping our residents safe from the Coronavirus.

Sincerely,

Mary Ann Mangels, LNHA
Administrator
